

Surgery Works™

is your complete surgical scheduling solution that is secure, customizable and easy to use.

FOUR CLICKS TO SURGERY SUCCESS

Create Patient Profile

- Enter patient information, including a unique patient indicator.
- Indicate current doctor, primary care doctor, and basic patient information.

1

Schedule the Surgery

- Select the surgery date(s), location, surgery type, ICD-9 codes and other related information.
- Also enter additional information such as anesthesia type, medical allergy information and post-op date.

2

Complete Pre-Op

- Input surgery requirements including physical information, blood work, EKG, ultrasound and other testing requirements and results.

3

Print Out Reports

- Print out Doctor Instructions, Surgery Availability Reports, Surgery Schedules and other reports; all available at the click of a button.
- Automatically print out pre-filled hospital or surgery center packets, surgery notification forms and other custom designed forms.

4
